This electrifying energiser makes for a brilliant conference or meeting ice-breaker where, armed with a Boomwhacker, your group is transformed into a Boomwhacking orchestra. But “What are ‘Boomwhackers’?” we hear you say...Well, they’re hollow, plastic tubes of different lengths and colours which, when struck by hand or by another tube, create a musical note.

These simple plastic musical tubes can change any conference or meeting into a sea of sound and colour with everyone working together in perfect harmony. Our exuberant facilitator will get your whole group grinning and bring out everyone’s musical flare.

Your group will be led to believe they’re about to have a particularly dull lecture on the driest possible topic before our ‘lecturer’ reveals they are in fact a ‘Rhythm Master’ and unleashes the Boomwhackers!

Everyone grabs a different colour Boomwhacker and the Rhythm Master explains how the colourcoding corresponds to different notes. Each colourgroup is taught different, simple beats and rhythms which are layered on top of each other to create a brilliant sound.

Once everyone is playing, listening and reacting perfectly together, we enhance the music further with our interactive intro and finale sections. The end result is a thoroughly memorable performance that will have everyone on their feet and totally energised!
