

Indoor Teambuilding

F1 Challenge

EVENT FACTS:

Duration: Approx. 2-3 hours

Location: Nationwide

Group Size: 10-150

Your team is supplied with a pre-designed chassis which is the starting block for the car. You then blueprint a bodywork design to build and brand your car winning points for the best design. Be careful to stay within the legal specifications, you don't want to be disqualified...

Formula 1 is about more than just the cars though, you will also need to design a brand for your team. Team hats, overalls and the car must be branded with your logo and sponsors' names after you have pitched your theme to our experts.

Finally the cars are lined up for a head to head race down the track into the pits where your pit team remove and replace the tyres as fast as possible before charging back to the start!

Teams are supplied a variety of materials to build and decorate their cars, but are encouraged to think creatively and scavenge anything which will make their design stand out. The scrutineers will then inspect your designs and award points for interesting and innovative construction.

You'll need to justify the sponsorship deals you've created to our F1 Branding Manager; bonus points for clever company names and amusing sponsors' logos. The Grand Finale is a head to head team relay and pit stop challenge, with the winning team crowned World Champions.

This event combines creative design and raw competition to create a hugely enjoyable day and a great team building experience. This event enjoys fantastic feedback; we find everyone really gets involved – just watch the video to see what our clients have to say....

Please note that all materials used on this event are recyclable, we care about our sustainability and creating as little waste as possible!
