Christmas Teambuilding Festive Movie Making

Collaboration

Creativity

Broad appeal

Link to business themes

Duration:
Approx. 2-4 hours

Location:
Nationwide

Group Size:
10-250

Get ready to bring some festive magic to life with our exciting Christmas movie-making experience! Using top spec iPads, professional film equipment, festive props, and costumes, you'll star in and create your very own high-quality short Christmas film.

After filming, you'll have the chance to edit and polish your masterpiece before showcasing it to the group. Our iPads feature impressive 8-megapixel cameras and 1080p HD resolution, ensuring your holiday scenes shine bright. You can even capture slow-motion shots at 120 frames per second for those heartwarming action moments!

Teams will brainstorm festive themes and draft storyboards for their movies. Whether it's a cheerful Christmas advertisement, a lively lip-synced music video of your favourite carols, or a fun reenactment of your favourite festive film, the creative direction is up to you! Each group of about eight will receive an iPad along with a lighting unit, microphone boom, festive props, costumes, and movie storyboards to bring your vision to life.

Once you've gathered all your footage, it's time to dive into the editing process! The iPad software lets you cut and blend scenes, add filters, titles, and jolly theme music—your creativity knows no bounds! Finally, we'll gather for the grand screening of your festive films. If you'd like to add a touch of competition, we can even crown a winner, or simply sit back and enjoy the holiday spirit in everyone's efforts!
