

Indoor Teambuilding

LEGO Logos

EVENT FACTS:

Duration: Approx. 1 hour

Location: Nationwide

Group Size: 10-250

Welcome to “LEGO Logo’s,” an event that will not only bring out the creative talents of your group, but also allow for some key objectives to be reinforced throughout the course of the event.

The group will be split into teams who will each have a share of a pile of LEGO consisting of over 26,000 blocks of different colours and sizes. With this, their objective will be to build a structure representing your company and/or its values. Now, this may be in the form of your company logo, a model representation of any key objectives or simply a model that reinforces the value of effective teamwork.

It is in the teams’ hands to be as creative as they want to be and with plenty of LEGO to choose from, the opportunities are endless. This is a great event that can be tailored to suit any theme or objective in place during conferences or within the company itself and the Grand finale sees the unveiling of each model and each team gives a brief presentation for their inspiration behind their model.

Key Benefits:

-  Creativity
-  Team Unity
-  Communication
-  Sense of Achievement
