Head straight to Jail, borrow money from the bank, take a chance or capitalize on your 'Monopoly'... The classic game has featured in most family's game nights and caused more than a few arguments over the years!

We've taken the game's concept and created our very own tablet based Treasure Hunt version. Take your group on a fast-paced race around London, seeing the sights of the UK's capital as you compete head to head.

Each team is issued with an iPad Mini, pre-loaded with our Treasure Hunt Software. Using an interactive GPS map dotted with locked way points, route planning is essential if teams want to hit as many locations as possible. Time is key with this game, with so many way points that you will struggle to make it to them all in a single event!

Don't worry, you won't be entirely on foot... we provide London Black Cabs (1 per team) to take you on your strategically planned route. Alternatively, you can choose to add the extra challenge of using the capital's public transport system to get to your locations on the game board!

Much like the board game, our event is based on well known areas around London; Pall Mall, Whitechapel Road, Fleet Street, Park Lane... the list goes on. Some areas will be more valuable than others, but as the point value increases... so does the challenge!

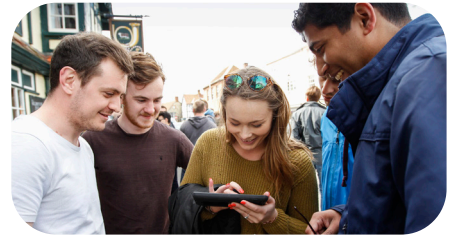

Will your team plan the most efficient route for points or end up rushing to Mayfair and 'going bust' at the first hurdle, only to find that the clock has run out?!

The Tablets

Each team will be provided with an Apple iPad tablet, pre-loaded with state of the art treasure hunt software. Teams will be guided by the interactive onscreen map throughout the event, which will not only show every challenge and task you face, but will also keep you aware of where rival teams are throughout the day.

The technology will track your team everywhere you go and will only allow questions and challenges to be activated when you're in the vicinity of that particular hotspot—no Googling the answers from the pub!

Teams earn points for correct answers and receive penalties for incorrect answers. As challenges are completed and questions answered, your score will be instantly updated to the live scoreboard alongside that of your competitors', fuelling the competition!

The fiendish software shows you the locations of all the other teams; you will need to be thinking three steps ahead to keep the lead, thus making the day tense and adrenaline filled...

Our treasure hunts are scripted to ensure teams meet up on route at key locations guaranteeing a dynamic event with amusing and competitive interaction between teams!

We are able to incorporate bespoke graphics for the tablet backgrounds and create unique content ideal for addressing corporate themes or objectives.
