

Virtual Cocktail Making

EVENT FACTS:

Duration: Approx. 1-2 hours

Location: Nationwide

Group Size: 10-250

Here's an event that's certainly worth a shot.. Our Virtual Cocktail Making is the excellent blend of bringing your team together online whilst keeping that physical element.

There's no queuing at the bar, our Mixologist leads you virtually via the power of 'Zoom' through a range of classic cocktails, or mocktails, to create yourself. The event is done by rounds with a new cocktail to create in each one, with just a hint of zesty competition added to really shake things up!

With cocktail making it's not only presentation that's key, it's preparation. You'll be taught the art of 'flaring' which will have you juggle, toss, spin and shake your drink into life with a masterful performance.

Scores will be based on creativity and showmanship with the overall winner crowned at the end of the event.

This event has several packages to choose from, with the option to source equipment and ingredients yourself or have us deliver a box of items needed to each member of your group.

In our full package delivery we include; a range of menu choices, alcohol, syrups, mixers, straws, fruit, set of cocktail making kit and glassware so you can continue re-creating your favourite drinks post event!
