

virtual Teambuilding

Virtual Masterpiece

EVENT FACTS:

Duration: Approx. 1-2 hours

Location: Nationwide

Group Size: 5-250

One of our most collaborative online events, the Virtual Masterpiece gets your team working together to re-create famous works of art. There's no need to worry, if you're not an aspiring artist as this event is great fun for all!

They start things off by splitting a famous work of art, or company logo, into sections which are then allocated to each member of the team.

Next is a race against the clock to duplicate your allocated section of the picture, however that's just the beginning, as you will also have to scrabble to find materials around you to help create your section. Magazine cuttings, coffee stain, makeup, pasta and even LEGO, the more creative the better!

Team work and co-operation is a key theme in this virtual event as you'll need to discuss colours, techniques and scale to make sure all individuals sections of your virtual art match up to create the final piece, it's all about 'the bigger picture'!

Once time is up our virtual event manager will request each team member to send them across a photo of your section, these are then carefully edited together to produce the final reveal.

We can also provide a virtual art class with art supplies delivered to every participant. Follow our virtual events manager through an online masterclass to create some truly stunning works of art.

Key Benefits:

-  Teamwork
-  Creativity
-  Tangible results
-  Link to business objectives

What's Included:

-  Virtual event management & instruction
