Saboteurs is one of our most thrilling and competitive events - a fast-paced, high-stakes experience of wit, nerve and deception. Inspired by the hit show *The Traitors*, this tense and exhilarating challenge sees teams tackling a series of dynamic outdoor activities designed to test problem-solving, communication and teamwork - all while trying to uncover who among them can truly be trusted.

As the event begins, the traitors are silently selected. Their mission is to secretly sabotage the faithful's progress, build convincing alliances and remain undetected. Teams will use the initial indoor briefing to assess reactions, plan strategy, identify strengths and decide - crucially - who they believe they can trust before heading outside to face the challenges ahead. Points are earned through success but lost through deceit, so strategy is just as important as speed.

Between activities, teams return to their indoor round table to question loyalties and expose the saboteurs in their midst. Ideally, the indoor space and outdoor activity area will be close together to ensure a seamless flow between strategy discussions and live challenges.

Points mean prizes - but only those who combine skill, intuition and teamwork will claim victory. Our outdoor Saboteurs event blends logic, energy and deception in a gripping battle of trust and treachery that will leave your team buzzing long after the final vote.
