Skate to Donate

Build, Bond, and Give Back

Welcome to “Skate to Donate” – a charity event where your team builds and customizes skateboards to be donated to local youth charities. This hands-on, creative experience brings your team together with a shared goal, blending teamwork with the fulfilment of giving back. Not only will participants construct high-quality skateboards, but they’ll also add unique, personalised designs, making each board a symbol of their collective creativity and spirit.

Purpose with a Positive Impact

“Skate to Donate” is special for its impact on the community. Each skateboard built is donated to charitable organisations, providing joy and mobility to children and teens who may not have the chance to own one otherwise. This initiative brings a meaningful layer to the event, leaving participants with a sense of accomplishment and pride.

Event Format

Assemble and Collaborate: Teams begin by assembling skateboards using high-quality parts and tools. Working together ensures each board is sturdy and safe, fostering communication and teamwork as participants support each other through each step.

Design with Purpose: With boards assembled, teams add personal touches through paint, stencils, and positive messages, creating one-of-a-kind designs. This customisation encourages creativity as teams think of future skateboard owners.

EVENT FACTS:

Duration: Approx. 2-3 hours

Location: Nationwide

Group Size: 5-200

Key Benefits:

-  Team collaboration
-  Creative expression
-  Community impact
