-  Event Photography or Filming
-  Upgraded prizes – Champagne, Chocolates, Trophies
-  Team clothing – Shirts, Caps etc.
-  Bespoke Tablet graphics/questions/ vehicles / Ribs

Outdoor Teambuilding

Spy School

Activity Descriptions

Sniper Shoot

An essential skill for any spy, practice your marksmanship on our rifle range. Use these high powered pneumatic firearms to shoot at exploding targets and score points for your team.

Axe Throwing

During World War II, the Office of Strategic Services (OSS), the predecessor to the CIA, trained their operatives in the art of axe throwing as a silent and deadly method of assassination. Today, while axe throwing is enjoyed by many as a fun activity, its historical ties to espionage add an element of intrigue.

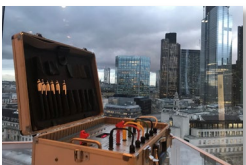

Crossbows

Have a go with our high-powered, modern crossbows with telescopic sights, all under the expert eye of our qualified instructors. Please, no shooting apples off colleagues' heads...

Breakout

Your colleagues have managed to obtain a top secret encrypted document. Using the military field telephones in each tent, the task is to obtain a description and to replicate it as accurately as possible.

Code Breaker

Our customized magnetic pulse generators are designed to assess participants' ability to handle time pressure. Participants must act swiftly and figure out the correct sequence for pulling wires out of a "bomb" to disarm it, as the clock counts down.

Hand to Hand Combat

It's not all guns and car chases; our operatives need to be able to defend themselves unarmed. Here a martial arts expert teaches you self defence techniques.

Spy School

Activity Descriptions

Stage Fighting

Having learnt how to defend yourself, now learn how to take (fake) hits like a professional stuntman. Choreograph a fight sequence to earn your team points for the most convincing display.

Fire Making

Agents need to be able to survive in the wilderness. The most fundamental skill is the ability to light a fire. Under the supervision of our instructor you'll learn how to start a fire with very limited resources.

Safe Crack

Every agent needs to know how to crack a safe, we give your team the chance to learn. Your team is issued with a variety of clues to work out the combination of the safe. Can you crack it?

Quad Bikes

Speed and accuracy take equal importance here when riding the Yamaha 125cc Quad Bikes. After a helmet fitting and safety brief, riders set off around our course under the eye of our track stewards.

Blindfold 4x4 Driving

Teamwork and communication is the key to this challenge, communicating with your passengers to navigate your way accurately around the course.

Argocats

These six wheeled off road vehicles have two seats and with the help of our instructor, team members will make their way around our track. Great fun on any terrain.
