20-150

Our Together We Can event embodies the true ethos of team building; each team contributes to a common goal and must communicate effectively in order to achieve success. The brilliance of this event – it is pure teambuilding theory made fun! The event promotes co-operation through a variety of non-competitive team building activities. Each team contributes to one large task, communicating their work to the next team in a briefing at the start/end of each challenge.

Canvas Art – The team is presented with a giant canvas and acrylic paints. They must work together to generate a section of the overall design.

Rollercoaster Challenge – Each team must build a working rollercoaster which carries a ball for over 30 seconds.

Think Outside The Blox – We give you thousands of Lego bricks and free reign. Some teams make their company logo, others something more abstract.

Commercial Break – Each team films a section of a film. The next team will follow on in sequence. Continuity is key!

For the finale, the teams come together for a grand unveiling. They will see their completed Da Vinci's Masterpiece, watch as the ball rolls perfectly down the Rollercoaster, laugh at the brilliance of their video and enjoy the completed LEGO Sculpture.

What's Included:

- ✓ 4 activity zones
