Outdoor Teambuilding Tour De Team

Delegation

Creativity

Tangible Results

Teamwork

Duration:
Approx. 2-3 hours

Location:
Nationwide

Group Size:
10-200

Get ready to pedal your way to success in Tour de Team! Each team is handed a brand new, dismantled bike frame along with a toolkit and workstation. But before hitting the road, you'll need to prove your skills by conquering a series of challenges that'll put your teamwork and creativity to the test.

Think outside the box as you navigate through the challenge zones, each one designed to push your limits and unlock the essential parts of your bike. From solving puzzles to mastering physical tasks, every challenge brings you closer to completing your ride. Remember, you'll need all the parts to ensure you're not left racing without wheels!

Showcase your team's eco-creativity by repurposing bike parts into stylish accessories. Test precision and control in a slow race, balancing without touching the ground. Navigate an obstacle course by guiding a blindfolded teammate with clear communication. Finally, race against the clock to locate and repair punctures, proving your speed and problem-solving under pressure.

Once all parts are won, it's time to construct a fully functional bicycle. Expertly scrutinised by a professional bike technician, your creation is put to the test, showcasing your cycling knowledge and craftsmanship.

Catch your breath as the scores are revealed, with the winning team earning Tour De Team gold medals. Following the session, safety standards are met as bicycles undergo thorough inspections by certified mechanics before being transported to the designated group or organisation.

What's Included:

- ✓ Professional bike technician
- ✓ Bike per team donated to a worthy cause
- ✓ Cycling related challenges
- ✓ Bike build tool kit

Optional Extras:
