The Ultimate Challenge is one of our most competitive events. This fast paced, fiddly and fun event has teams frantically completing short, sharp challenges against the clock. Each team is given a chest filled with a veritable smorgasbord of finicky puzzles, fiendish challenges and funny activities. You'll get a few minutes to sort through the contents and plan your strategy to best use your team's skills.

Then the competition begins and you complete as many of the challenges as possible in five minute bursts, between chances to showcase your successes. The tempo is fast, the competition zealous and the room fills with energy! There's something for everyone to excel at in the Ultimate Challenge; while one member is making an origami swan, another is making a balloon animal, while another is seeing how many cream crackers they can eat in a minute!

Challenges are graded in difficulty and points are awarded accordingly, so you need to think strategically to get the most points –and points mean prizes. The winning team receives medals for their efforts. Our aim is to get you working together, but we always find the competition becomes as fierce as the fun when the teams' enthusiasm and determination sky-rockets... This event combines logic puzzles, wacky challenges and gentle exercise to deliver a hugely valuable team building day.
