

Virtual Teambuilding

# Virtual Casino

## EVENT FACTS:

**Duration:** Approx. 1-2 hours

**Location:** Worldwide

**Group Size:** 10-150

If you can't get all your guests to Monte Carlo then let us bring the Casino to you!

Encourage your team to dress to kill as they take their seat at the virtual tables hosted by our professional croupiers. This night in will be one to remember as you make your millions or loose everything to the house... luckily for some the money is virtual too!

Depending on your numbers, we'll set up separate gaming 'rooms', each with a croupier for the most popular card and table games. The games and length of the event can be tailored to your requirements.

From the classic Blackjack & Roulette to a twist on the original English Poker game of Brag, you'll get to practice your best poker face whilst learning from our professionals who will guide you through each step of each game.

As well as the live games we also give masterclasses in Craps/Dice and Texas Hold'em Poker giving the option to play an online version with coaching and commentary from the croupier.

No equipment is needed for this activity unless you decide to pair it with our Virtual Cocktail Making to ensure that you get in the mood with that perfect Martini – shaken, not stirred of course!
