

Virtual Cheese and Wine Tasting

EVENT FACTS:

Duration: Approx. 1-2 hours

Location: Nationwide

Group Size: 15-100

Cheese and Wine tasting bars have become the latest foodie trend, so why not impress your colleagues or clients with our virtual Cheese and Wine Tasting event?!

Our host greets you through the power of 'Zoom' or whichever virtual meeting platform best suits your group. Once settled in, our host introduces you to our Cheese and Wine experts who then take you through a brief yet interesting history of cheese.

Next, our cheese expert will present to you the first cheese and give you some detail into its background.

You won't be simply 'chowing down' in this sophisticated soiree, our cheese expert will explain how your tongue is essentially a taste map and there's a right way to use it. Diving deeper into your taste buds, you will also learn about the olfactory nerve which links memory to smell, a key factor in this event.

Following quickly on our wine expert steps in to introduce the pairing for each cheese. Each wine has been carefully selected based on not only its taste but the numerous international accolades, to impress even the most discerning palettes.

Our wine expert will also dive into the region, grapes, vineyard and inform you of the history behind each bottle.

We send out an event box prior to include; selection of cheeses, full bottles of wine, dried fruit & olives, crackers & chutney, napkins and an event brief.
