Virtual Escape Room

EVENT FACTS:

Duration: Approx. 1-2 hours

Location: Worldwide

Group Size: 10-250

Using the latest in virtual game software including image recognition and augmented reality technology, our virtual Escape Room event is a competitive and interactive race against the clock!

Having been invited to the office of a high-end art dealer in London, you arrive only to quickly discover that you've been locked in the room. As you begin, you realise that the whole thing was a ruse and you've been framed for an elaborate art heist!

The only option left available to your group now is to escape! The door is locked with a numerical coded padlock, your best shot at freedom is to search the room for clues and crack the code.

Using either a tablet or mobile device, each member of your group will be able to search the room whilst communicating via online meeting software such as 'Zoom'.

Each clue found will get your team to complete challenges, solve cryptic riddles and test their worldly knowledge. However, that's not all, each problem solved may also give a vital piece of information towards aiding your escape.

Can you beat the clock and find the code to freedom before it's too late?!

Key Benefits:

-  Critical thinking
