

Indoor Teambuilding iPad Movie Making

Learn a skill

Creativity

Broad appeal

Friendly Competition

Duration:
Approx. 2-4 hoursLocation:
NationwideGroup Size:
10-250

Using the impressive top-spec iPads, our professional film equipment, props and costumes, you'll film and act in your own high-quality short film – which you'll then cut, edit and polish before screening to the group.

Our iPads have 8 megapixel, 1080p HD cameras with an eye-watering 2448 x 3264 resolution. You'll be able to shoot slow-motion at 120 frames per second for all-important action shots.

Teams will create a theme for their movie and draft a storyboard of scenes/shots to film. This could be producing a company advert, making a lip-synced music video, or reproducing famous scenes from films; it really is up to you!

Your group is divided into teams of about eight people who will be issued an iPad with lighting unit, microphone boom, props, costumes and movie storyboards.

Once you've got all the footage you need, it's time to edit. The iPad software allows you to cut and fade scenes, add filters, titles and theme music, present your film in a news format –the possibilities are endless...

Finally we sit down to the grand unveiling of the films; if you're looking for a competitive element we can judge a winner or just sit back and enjoy everyone's efforts.

What's Included:

-  Fancy dress and prop boxes
-  1 iPad movie kit per team
-  Event management & instruction
-  Copies of videos post event

Optional Extras:

-  Event Photography or Filming
-  Upgraded prizes –Champagne, Chocolates, Trophies etc.
